 - Here are entered works on forests consisting primarily of tall, broad-leaved evergreen trees located in areas of high annual rainfall chiefly, but not exclusively, in the tropics. Works on areas of luxuriant, impenetrable vegetation occurring where light penetrates along tracks or riverbanks in tropical areas or as second growth vegetation where tropical forests have been cleared are entered under Jungles.

Here are entered works on settlements of Roman citizens in a newly acquired or hostile country. Works dealing collectively with the countries or regions brought under Roman administration are entered under Roman provinces. Works on individual provinces are entered under the name of the province, and under the heading Romans subdivided by the province.

This heading may be subdivided geographically by the following places only: Africa or Asia.

— **Africa**

— **Asia**

— **Diplomatic and consular service**

Route surveying (*May Subd Geog*)
[TA625]
 Here are entered works on surveying for the location of routes of transportation and communication, including cableways, canals, pipe-lines, railroads, roads, transmission lines, and tunnels. Works limited to a route survey of one of these would be entered under the appropriate heading with subdivision Surveying, e.g. Railroads—Surveying; Roads—Surveying.
